

Sunday 1st December 2024

NSW Hardware Social Golf Club – Presidents Report

Well here we are, another December and another great year of Hardware Golf. We've had good attendance this year and enjoyed 2 getaways. The weekend at Kooindah Waters is always a favourite and being able to stay and play is ideal. It was a shame that the weather did not hold for our game at The Springs, however a few keen golfers started off in the rain.

Now that the Interstate has folded we use those few days in October to getaway with fellow members. This year we enjoyed a few days in the Southern Highlands. Being so close it was great to also have people who were unable to stay come down from Sydney for the Sunday game. We had mixed weather that's for sure but managed to get all 3 games in.

I'd like to thank Steve and Mal for their work organising the games and handicaps. The role of Club Captain is a tough gig and includes organising courses for the following year and confirming numbers each month with the respective pro shops.

As you will see on the App, Steve has booked some different courses for next year, so looking forward to playing these.

The App is a great way to communicate. Please ensure you RSVP to games in a timely manner so that Steve can confirm numbers with the clubs.

I'd like to thank the club executive for your support this year and thanks to all our members for your continued support. If you know of someone who would like to join our club and become a member please feel free to ask them along. The more the merrier !

Steve and Misha " tie the knot " this week and I would like to wish them a bundle of happiness for the future. As most of you know, Cassie is finally making an honest woman out of Doris and marrying her early next year. I know, you are all thinking, about bloody time ! Our best wishes to Doris and Cassie for their special day.

On behalf of myself and the club executive, we wish you a very merry Xmas and a happy, healthy and prosperous new year.

Alison Garnett

President NSW HSGC
